

RITA Release Results April 2021

All enhancements were implemented successfully unless otherwise noted

Enhancements	Description	Agency	Production Date
ENHC0010086	Modify the Import component to identify records that are "Bypassed". Additionally, the Trans Code field will be moved to the header row and the Orig Acct Date will be replaced with the Orig Document Reference Number (DRN) that has more meaning to users.	ALL	07/09/2021
ENHC0010079	Modify the Import component to allow for automatic processing of an imported file. This function will be optional. Having the ability to automatically process scheduled imports will save the IPAC users time and allow them to begin analysis more quickly.	ALL	07/09/2021

Defects	Description	Agency	Production Date
	There are no defects included in this release.
